DIRECTION FOR USE READY TO USE

Septalkan+

Disinfectant detergent alcohol-free for surfaces and medical devices

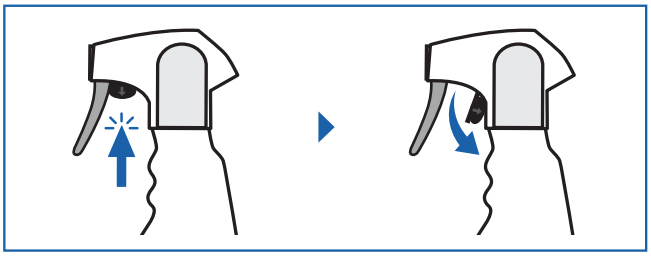
Ready-to-use solution:

Medical device application: for cleaning and disinfection by wiping of surfaces of invasive and non-invasive reusable medical devices.

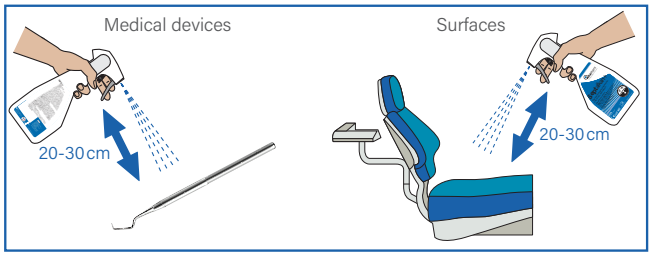
Biocidal product application: for cleaning and disinfection by wiping of surfaces, furniture and heavy equipment.

Before use, check the expiry date on the label.
⚠ **Septalkan+** is used undiluted.

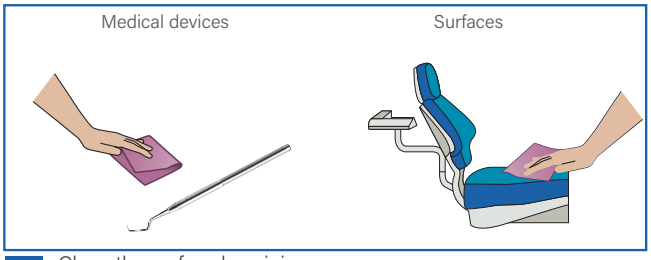
750 mL spray bottle



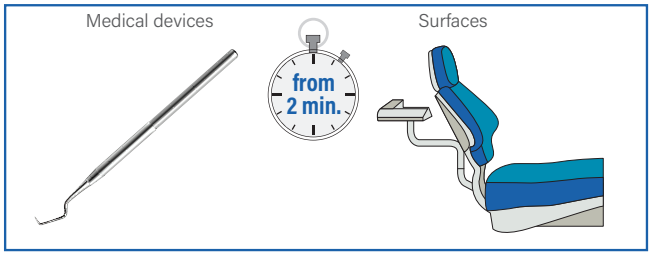
1 When using for the first time, remove the tamper-proof protection from the nozzle. Unlock the spray safety tab.



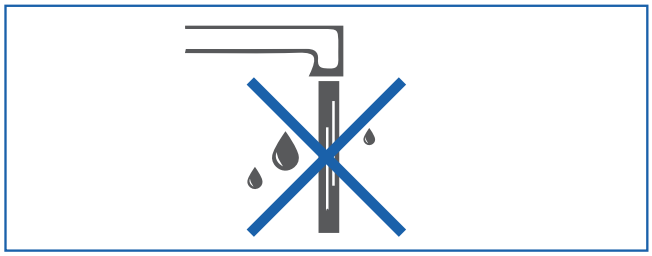
2 Spray evenly on the surface to ensure the area to be treated is covered (±6 mL/m², at 20-30 cm from the surface).



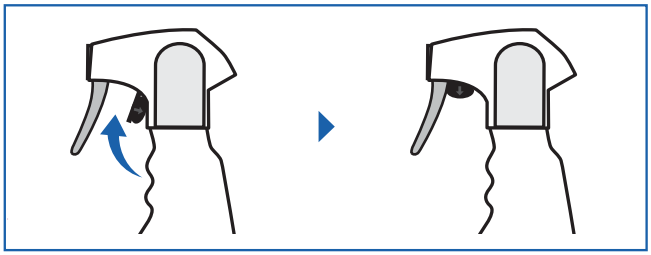
3 Clean the surface by wiping.



4 Contact time: from 2 min. depending on the required activity spectrum. After the appropriate contact time, allow to dry or wipe with a dry wipe.



5 Do not rinse (except surfaces in direct contact with mucous membranes or foodstuffs, or if a further disinfection step is required).



6 Lock the safety tab after use.

Repeat the disinfection operation whenever necessary.

Use biocides safely. Always read the label and product information before use.
